BRINGING YOUR DREAMS TO REALITY

Mobile control system SIT G4

SIT G4 is the newest high-end Hybrid H.264 Mobile Control System that provides the perfect **surveillance solution for vehicles** or rugged environments.

SIT G4 **is fully loaded with hardware and software** characteristics to meet any market specification.

it allows for live view, playback with Google Maps, and integration with Automatic Download, Health Monitor, and MobileLink™ software.

Advantages Performance on Hardware:

mobile control system

- 4-camera **Analog or IP Megapixel camera** system
- Embedded Linux OS for maximum stability
- Resolution: D1, HD1, CIF (Analog); **up to 5 Megapixel (IP)**
- H.264 video encoding
- **Dual streaming** video for low-bandwidth applications
- Support for USB **Air Cards (3G/4G)**
- Built-in mirror recording function for fault tolerance
- **Lockable, removable storage tray**
- Built-in 3 axis inertial sensor
- Built-in **GPS module (patent pending route rebuild)**
- Built-in shock and vibration absorber
- **PTZ control**
- Small profile (7"x7"x2")
- **100% web-based client software**
- Integration with **Microsoft Active Directory**
- **Integration with MOTOROLA walkie-talkie**

BRINGING YOUR DREAMS TO REALITY

One Device Controls It All

Advantages of potential Market on Hardware: Mobile Control system

- Public Transportation & Tour Buses
- School Buses & Vans
- Taxi Cabs & Limousines
- Police & Law Enforcement Vehicles
- Military Vehicles
- Ambulances & Emergency Vehicles
- Delivery Vehicles
- Fleet Vehicles
- Dump Trucks & Snow Plows
- Ferries & Water Taxis
- Utility Vehicles
- Trains & Trolleys
- Undercover Surveillance
- Boats, Ships & Yachts

Advantages Solutions on Hardware: Mobile Control system

- **Video Enabled GPS**--Realize Live Tracking and Tracking History w/Video
- **Accident Identification**--Avoid Paying False Accident Claims
- **School Bus & Student Tracking**--Automated Ridership Management & Student Accountability System
- **RFID Assets Management System**--Track Assets On & Off Vehicles
- **ON-BOARD CCTV Recording** With Remote Live View
- **Motor & Tire Alerts**--Detect problems before costly repairs are needed
- **Driver Management**--Maximize Drive Performance & Efficiency
